

4020/4030 Staticide® Neutral Cleaner

Product # 4020

Product # 4030

High detergency formula

Staticide® Neutral Cleaner is a low-foaming, multi-purpose cleaner designed for effective maintenance on ESD and non-ESD flooring materials. This high detergency formula ensures a streak-free, film-free finish and is ideal for any facility. Non-abrasive and silica-free, this cleaner will not compromise the anti-static properties of production environments, making it perfect for ESD tiles, conductive floors, ESD paint, and concrete surfaces.

Environmentally friendly and safe for septic and sewage systems, this neutral cleaner is non-toxic, biodegradable, pH-neutral, and free of phosphates and alkalis. Staticide® Neutral Cleaner comes in two options: 4020 Concentrate and 4030 Ready-to-Use.

Directions:

For normal surface cleaning of floors, first sweep floor to remove surface dirt. Then mop floor with one of the Neutral Cleaner solutions. Allow to air dry before resuming foot traffic.

4020 Concentrate

- For normal floor applications, dilute 128:1 and clean.
- For cleaning after stripping, dilute 128:1, scrub, and rinse.
- For oil, grease, and scratch marks, dilute 64:1, soak for 5 minutes, scrub, and rinse.
- For metal, dilute 128:1, clean with cloth or brush and rinse.
- For eliminating streaking during autoscrubbing, dilute 256:1

Product# 4020-1: 4 gallons per case

Product# 4020-5: 5-gallon pail

Product# 4020-2: 54-gallon drum

4030 Ready-to-Use

- For normal floor applications, pour and clean. Rinse if necessary.
- For metal, clean with cloth or brush and rinse.

Product# 4030-1: 4 gallons per case

Product# 4030-5: 5-gallon pail

Product# 4030-2: 54-gallon drum

Ideal for the following applications:

- Electronic manufacturing facilities
- Maintaining ESD paint
- Warehouses

FEATURES

- Safe for ESD tile, epoxy, and paint
- Non-toxic and biodegradable
- Non-abrasive, pH-neutral
- No acid, phosphate, ammonia, alkalis, or bleach
- Covers approximately 5,000 square feet per diluted gallon
- Suitable for use on concrete, ESD tile, painted floors, metal, glass, porcelain, and woodwork
